

## DHH Launches Serverless GPU Product for AI via Subsidiary Seeweb

Milan, 11 June 2024. DHH S.p.A. (DHH.MI) (ISIN shares IT0005203622) through its subsidiary Seeweb, proudly announces the launch of a groundbreaking Serverless GPU product designed for AI applications. This innovative product, accessible at [k8sgpu.seewebcloud.com](https://k8sgpu.seewebcloud.com), leverages Kubernetes to provide scalable, on-demand access to thousands of remote GPUs, addressing the growing computational needs in AI model training and inference.

### Rationale Behind the Product

The global demand for GPU resources is skyrocketing, driven by advancements in AI, data analytics, and complex simulations. Traditional on-premises solutions are costly and inflexible, often leading to underutilization or over-provisioning. Seeweb's Serverless GPU product mitigates these issues by offering a cloud-based, pay-per-use model that ensures optimal resource allocation and cost efficiency.

### Key Benefits

1. **Scalability and Flexibility:** Seamlessly scale GPU resources up or down based on real-time needs, avoiding the delays and costs associated with physical hardware procurement.
2. **Cost-Effective:** Eliminate the financial burden of large capital expenditures on GPU hardware, paying only for the resources used.
3. **Sustainability:** Promote energy efficiency by dynamically allocating GPU resources, reducing overall power consumption.

### How It Works

The product integrates Kubernetes, an open-source system for automating containerized applications, to manage and orchestrate GPU resources. By installing the k8sGPU agent in existing Kubernetes clusters, users can create virtual nodes that access remote GPUs as if they were local. This setup supports both machine learning training and inference workloads, ensuring high performance and minimal downtime.

### Part of DHH's Cloud GPU Product Family

This Serverless GPU product is part of DHH's Cloud GPU product family, which saw a remarkable 88% year-over-year revenue growth in the first quarter of 2024. This growth underscores the increasing market demand and the effectiveness of DHH's innovative solutions in meeting customer needs.

### About DHH S.p.A.

DHH S.p.A. (DHH.MI) (ISIN shares IT0005203622) is dedicated to reshaping internet infrastructure through the integration of next-generation technology and artificial intelligence. Based in Europe, the company leverages open-source technologies to enhance digital connectivity across various industries

and regions. With a commitment to continuous research and open innovation, DHH aligns technological progress with stringent data privacy standards. This approach promotes technological excellence while safeguarding individual privacy, aiming to position the company as a relevant player in the evolution of global internet infrastructure.
